

BOYS & GIRLS CLUB OF THE BELLPORT AREA  
1685 Montauk Highway  
Bellport, New York 11713

Dear Joel:

Now that we have completed the renovation of the Day Care Center, and have lived with it for a few months, we want to express our appreciation for all that you and your co-workers did to make the project a success.

All the frustrations and problems we encountered along the way were well worth the finished project, and I believe that working with Construction Consultants made that possible. Your commitment to the project, and your attention to every detail, whether or not it was your responsibility, made the technical and aesthetic results as perfect as possible.

In addition, your thoughtfulness about schedule and the needs of the day care children made it possible to undertake a complicated building project with as little inconvenience as possible. All the staff and subcontractors of Construction Consultants showed the same consideration and competence.

Thank you for undertaking the project, remaining with it during a long frustrating waiting period, and completing it competently and expeditiously. The Board members of B.A.C.A.C. frequently express their pride in an accomplishment that adds beauty to the community and also provides care for children who need it.

Sincerely yours,

  
Nancy Marr
